

EMBARK ON A CAREER IN TRAVEL, AND EARN WHILE YOU LEARN

NEXstart is geared for the entrepreneur-type professional starting from the ground up with no experience, business plan or book of business. They have the right business savvy and skills but need direction and mentoring on starting their travel agency business.

NEXstart offers a blended learning environment and will combine independent study with small group study halls and activities with Travel Leaders of Tomorrow.

NEXstart Lite is perfect for the professional who has a book of business, a strong business plan and is tech savvy but doesn't know anything about travel. This self-paced program is geared toward the independent learner who doesn't need one-on-one mentoring.

In addition to taking advantage of the benefits of Nexion Travel Group, NEXstart Lite participants will complete self-paced e-learning modules with the Travel Leaders of Tomorrow Independent Learner program.
